The Hobbyist Journal for the
Communications Revolution

147 West 42nd St Rm-603
New York NY 10036

PHREAKS GATHER IN WASHINGTON IN AUGUST

The Washington Area Telecommunications Society (WATS) will hold a symposium of telecommunications hobbyists (a more flattering term than "phone phreaks") in Washington DC on Saturday August 9th. The site for the Washington Area Telecommunications Symposium (WATS-80) will be the Gramercy Inn at 1616 Rhode Island Ave.

WATS-80 will have lectures on various aspects of accessing telecommunications networks in creative ways. WATS-80 will be co-sponsored by TAP, the New York City based newsletter of the phone phreak community. A featured speaker at WATS-80 will be Cheshire Catalyst of TAP. Cheshire has, through a loophole of the commercial teletype networks, access to the world telex network from almost any telephone, and an acoustically coupled computer terminal.

Chairman of WATS-80 is Aubrey Phillipz. Mr Phillipz' pseudonym is derived from an obscure science-fiction novel. Mr Phillipz will speak on the subject of computer related activities.

Tom Edison, editor and publisher of the TAP newsletter will be on hand selling back issues of TAP, TAP T-shirts, and cloth patches. The patches show the Bell System logo with a crack in the bell, and reads "Ma Bell is a cheap Mother".

Other TAP staff members will also be on hand for consultation on various subjects. Computer Wizard, No. 6, and The Librarian will be available for discussion. Computer Wizard will be discussing plans for a scrambled subscription TV decoder which is expected to be published in TAP in the next few months.

Besides the lectures by craftsmen in the telecommunications access field, Bell System films will be shown. These films are available to the public for showing to most any civic group at no cost.

The conference will begin at 10AM EDT with registration opening at 9AM EDT. Registration by mail will cost \$5.00, and \$6.00 at the door. Mailed in registrations will be held at the door for the registrant. It is hoped the registrant will use an interesting pseudonym to hold his badge under. If all his friends register as "Bilbo from under the rock in Albuquerque", the system breaks down a bit. A "supporting registration", priced at \$3.00, is available for those people who cannot make it across country for the conference. Supporting registrants will receive copies of all literature made available for passing out to attendees. The press is invited to write ahead for free pre-registration.
